ACKNOWLEDGEMENTS

The work and vision of the steering committee members of the Northeast Campus Sustainability Consortium were invaluable in the development of the 2006 conference. Over the past two years we have fostered a working relationship steeped in good humor and intellectual exchange. Thanks to Richard Bowden, John Cusack, Sara Hammond Creighton, Melissa Garcia Lamarca, Mary Jensen, Thomas Kelly, Steven Lanou, Kim Marsella, Jennifer Schroeder, Leith Sharp, Kurt Teichert, Gioia Thompson, Shana Weber, and Norman Willard.

My appreciation as well to the workshop organizers and speakers from Yale and elsewhere who volunteered their time and expertise and inspired much valuable and sometimes heated debate in the workshops they organized. All workshop organizers are listed in the Appendix.

My gratitude goes to Lisa Fernandez, Conference Coordinator, who worked diligently to create and support the vision of the conference. Lisa brought a wonderful sense of professionalism and experience combined with a gentle sense of humor and an uncanny ability to go with the flow.

The conference itself was made possible by the Yale Office of Sustainability with support from the Yale University Green Fund.

Jane Coppock, Editor of the Yale F&ES Publication Series, worked hard to print this report by a challenging deadline and was wise and generous in sharing advice early on that made the production of this report as smooth as possible. Thanks also to Dorothy Scott, the indefatigable page setter for the Publication Series. Many thanks to Jane and the Yale School of Forestry & Environmental Studies for agreeing to publish this report.

Last but not least my tremendous gratitude goes out to the student volunteers, without whom the conference, symposium and this report would not exist. They dedicated themselves to making sure the conference ran smoothly and brilliantly rapporteured the workshops and wrote most of the summaries of this report. My profound thanks to Matthew Eckelman, Michael Davies, Benson Gabler, Katherine Gasner, David Gottesman, Meleah Houseknecht, Caroline Howe, Rosi Kerr, Christopher Kral, Sarah Percy, Jason Rauch, and Sara Smiley Smith.

Many thanks to all who made possible the NECSC 2006 Conference and International Symposium and this report.

Julie Newman, Ph.D.
Director, Yale Office of Sustainability
